

The **FACE of LIPOSUCTION**

INFINI COSMETIC ASSOCIATES

WILLIAM HALL, M.D.

Infini Cosmetic and Dr. William Hall are the leaders of body sculpting in the valley over the past 18 years. Infini is very unique in the respect that it is a cosmetic specialty clinic that focuses entirely on modern techniques in liposculpture and fat grafting. Dr. Hall has sculpted over 10,000 physiques to perfection using the most up to date, accurate, and minimally invasive methods available. Liposuction has changed drastically over the years and can be a very patient-friendly procedure with the methods Infini uses. Dr. Hall utilizes advanced knowledge of anatomy and art to shape almost any area of the body in both men and women. Using local anesthesia, micro-incision sites and extremely small instruments allows the physicians at Infini to change bodies in a very natural way with virtually no downtime as compared to more tradition and invasive liposuction. Liposuction has changed... Experience the difference.
